

CHURCH MORTGAGE BURNED, ANOTHER EDIFICE PLANNED

English Lutherans Observe
Anniversary, Building
Committee Named.

DR. BITTLE, SYNOD
HEAD, IS SPEAKER

Says Economic Development
Is Reflected In Pro-
gress Of Church.

The congregation of Holy Trinity, English Lutheran church met Friday evening to celebrate the sixth anniversary of the founding of the church and to burn the mortgage against the organization which now leaves the congregation free to look forward to the erection of a new edifice at the corner of McKinley and Woodland aves.

Following the formal burning of the mortgage by Henry Ross, treasurer of the church building fund, Harry Izenour and A. H. Walde, all charter members of the church, the congregation voted unanimously to proceed with plans to undertake the building of a new and adequate church home.

Rev. J. P. Harman, who was celebrating his second anniversary as pastor, appointed as a committee on architectural designs Harry Izenour, chairman; S. B. Coles and H. Parker Lowell. A finance committee will be appointed later.

Dr. Bittle Speaks

Rev. J. Elmer Bittle, D. D., mission superintendent of the Pittsburgh synod declared in his address of the evening that the church with its unseen resources was a vital influence in providing for any community its greatest asset—citizens of character.

Quoting from Roger Babson, the prophet of the business world, Dr. Bittle said, "Business is improved or depressed as the church shows growth or signs of going backward. We may judge our future economic and industrial development by the progress of the church. It is through the unseen power of God that small missions develop into self-supporting churches."

Mr. and Mrs. Henry Ross, Mr. and Mrs. A. H. Walde, Mrs. W. H. Ritz, Mrs. A. H. Shropp and Harry Izenour were called upon as charter members to give short talks on the early history of the church. There were musical selections by the choir composed of Mrs. S. B. Coles, Mrs. A. H. Shropp, Miss Amelia Walde and Miss Ruth Hoch accompanied by Mrs. G. C. Greenstein, organist.

Organized By Rev. Dennig

Holy Trinity English Lutheran church was organized by the Rev. Charles A. Dennig, the first pastor. The early meetings of the congregation were held in the Pioneer block. The first church council was composed of the Messrs. Ross, Walde, Izenour, Donhoff and Wenzel. A. H. Schropp was elected superintendent of the church school an office which he still holds. H. Izenour has served as assistant superintendent most of the six years.

On Nov. 17, 1917, Rev. Mr. Dennig learned from the church board of extension that the local organization would be given \$2,500 toward the purchase of a meeting house. The property at Woodland and McKinley aves. was investigated and on Dec. 13, a deed for its possession was drawn up. The remainder of the purchase price was raised by the local congregation and repairs to the building were immediately made. Much credit belongs to the women of the church who were largely instrumental in earning money with

Athletic Exhibitions
Are Included.

Preparations for the Moose exposition to be given under canvas on the fifth st. circus grounds all next week have been completed by the local lodges. The first performance will be Monday evening. The entrance will be at West Fifth and North Howard sts.

The plantation show of cabin singers and dancers also is an excellent feature according to the lodgesmen. There is a museum, and side-show of curiosities, together with an athletic show.

The midway will present some exhibits of gophers, dolls, canary birds and other ornamental merchandise.

Youth's Curiosity Spoils Best Girl's Plans For Evening

Cleveland, June 16.—There's one University school youth who swore a solemn oath to lay never to voluntarily don handcuffs again.

Last night the young man was at the home of his "best girl" in East Cleveland, waiting to escort her to the commencement dance. While he waited the girl's father showed him a curious pair of handcuffs. The young man tried them on. There was a click, the handcuffs locked.

Efforts to unlock them were futile. The sheriff's office was called. An assortment of keys were tried, but it was not until the orchestra at the dance was playing "Three O'clock in the Morning" that the youth was released. Neither boy nor girl was present.

TWENTY FIREMEN HURT SERIOUSLY

Oil Tank Buckles, Spreading
Flames Over Crew Of
Pittsburg Firemen.

Pittsburg, June 16.—Twenty firemen were seriously injured, some probably fatally, in the collapse of a 100,000-gallon tank at the Atlantic Refining company's plant here.

Fire has been raging at the plant since yesterday afternoon and damage will reach \$1,000,000.

When the huge oil tank buckled a red hot steel roof dropped into liquid oil and fire gushed in every direction, catching a crew of fire fighters. Several spectators a hundred yards from the fire lines were burned.

At 2 o'clock the fire was raging over an area of nine blocks and firemen, unable to cope with the burning oil, were trying to save the neighboring section of the city.

The city was swept by dense smoke from the spectacular blaze which started late yesterday when an oil tank was struck by lightning. A fire zone a mile square was established.

Gold Represents Half Of Nation's Wealth In Money

Washington, June 16.—Nearly half of the country's stock of money is in gold, the treasury department announced today.

Gold coin and bullion in the United States amounts to \$4,923,250,500. All money, including gold, silver and government and bank notes amounts to \$8,536,623,000.

Of all the accumulated gold \$3,216,004,000 is held in the United States treasury. It stands as security against outstanding issues of gold and silver certificates, or is held for federal reserve banks and agents.

Only \$377,151.96 of the gold is outside of the treasury and only \$407,256,724 is actually in circulation. This would allow \$3.66 for each individual if it were equally divided. Included the sum outside the treasury is \$269,894,000 held by federal reserve banks and agents.

LEETONIANS TO SHARE IN LARGE ESTATE

Leetonia, June 16.—The city of Wilmington, Del., has offered \$500,000,000 to settle out of court the claims to that city's site, made by the heirs of Carl Springer. All told there are 1,000 heirs.

C. F. Powers, of El Reno, Okla., is vice president of the Springer heirs' association and stated this offer has not yet been accepted, but that a decision would be made soon. The stumbling block is that the half billion dollars is to be paid in installments over a long period of time.

Powers explained the claims by saying Carl Springer, who owned, by virtue of a land grant, the property on which the city of Wilmington, Del., stands, leased it to a Swedish church corporation in 1807. When the lease expired in 1908, Powers contends, the land reverted to the heirs.

But Adams, of Leetonia, whose mother was a Springer, said Fred Hollinger of the East End, who is a daughter of Union Leavenworth Springer, of Cleveland, and Mrs. David Pepple, whose mother was Sybil Springer, are heirs of Carl Springer and it is possible will participate in the distribution of the estate.

BALKAN VOLCANO THREATENS AGAIN

Overthrow In Bulgaria Is
Militaristic, Is Claim;
Troops Gather.

London, June 16.—While the Bulgarian legation formally denied today that the new revolutionary government at Sofia is militaristic, press advices from various Balkan centers reported that the Bulgarian government was taking warlike measures.

According to a dispatch from Athens, Greek officials claim the Sofia government has concentrated 70,000 troops. It is reported that hundreds of bands of Bulgarian irregulars have cast their lot with the government against the peasant "orange guard."

The Sofia correspondent of the Times reported severe fighting in which the casualties were heavy. Revolutionary leaders believe they will have little difficulty in putting down counter revolution now that former Premier Alexander Stamboulsky, the peasant leader, is dead.

Peasant bands, carrying flags of truce, were alleged to have fired upon revolutionary troops. The latter returned the fire. In some instances, the peasant forces were almost annihilated.

Armed peasant detachments are trying to approach Sofia. King Boris is said to have made preparations to flee by airplane in event the peasants are successful.

GANG OF ROBBERS CAUGHT IN BARN

Thousand Dollars Is Found
Secreted In Clothing
Of Suspects.

Newark, June 16.—What is admitted by high officials in government circles to be one of the most important captures ever made in Central Ohio, was completed at 4 a. m. Saturday by Sheriff Fred Vogelmeier, and specially deputized men, in a large barn near Central City, three miles west of here.

The posse surrounded the barn and Sheriff Vogelmeier climbed up into the hay mow where the five men slept and called to them to surrender which they did without a struggle. They gave the names of Carl Halzey, 32, Australia; John Harley, 49, Boston; J. S. Brown, 32, Steubenville; Dave Tallman, 25, Clark, W. Va.; and James Scott, 51, "home, any place."

One thousand dollars in currency was found secreted in the clothing of the men. A search for an automobile the men are known to have used is being made and a search of the premises is also going on. Work, Not Words

FORMER GOVERNOR ALLEN of Kansas recently stated after an extended tour of the continent: "The powers are playing for position. I take away a gloomy picture of the stirring new ambitions and the forming of new ententes. Europe cannot be saved by diplomacy. She must get back to work."

The formula is a simple one, and would be effective. But Europe, strange to say, is not ready to get down to work, except in spots. There are more armed men at this moment in Europe than there were immediately before the beginning of the World war. France, Poland and Czechoslovakia are paying court to one another, England and Italy are coquetting openly, the Balkans still constitute a powder magazine, Greece and Turkey merely for the moment are held in leash. Russia threatens the peace of the world.

Wars and great military establishments devour the rewards of peace. War and its evil forebodings constantly threaten the involvement of the United States. How shall nations be brought to learn and understand that war means loss, colossal suffering?

A step in the right direction would be the organization of the World court proposed by the president, but it would be a step only. The passion for war still thrills in the human breast. Loans to these disturbed and disturbing nations cannot save them and the world from another conflict; they might well hasten the coming of a new conflict.

Every man, no matter what his nationality, knows that work is good; that it is essential to social and political progress. There is an infinite amount of necessary constructive work waiting to be done in every land across the seas. No one of them ever will rise from its present state of turmoil and disaster until its people get back to work. This knowledge should be impressed more deeply upon statesmen and people. It is the only kind of propaganda that will help heal the wounds of the nations. Work and production will spell amity and peace. Work and production will enable reasonable disarmament and lowering of taxes. Work and production will bring happiness and comfort. Why will not statesmen and people realize this fundamental truth? The way out is so simple, so easy to adopt. Let the world work and all will be well.

Monday he will go to Ticonderoga, N. Y., where he will spend the summer on the farm of his uncle, Marion Thomas.

Ruth Edgerton of Columbiana spent a couple of days this week at the home of Hanna Blackburn.

Master Homer Gray, Jr., of Salem, is spending a few days with Wilbur and Eugene Meiser.

OUR READERS

Victims Of City's Sewage

Editor Of The News:

After reading the editorial in the Salem News on the damage paid by the city for the pollution of the middle fork of the Little Beaver creek by the city's sewage, I am not surprised at the editor's attitude, because, he, like a large majority of Salem's citizens is ignorant of the condition of the creek of late years. This is a big damage for the city to pay, but it will increase as the pollution increases. I predict that unless the city takes steps to correct it that quite a number of families along the stream will have to abandon their homes entirely. They simply cannot endure the stench.

It surely would be a matter of economy for the city to take hold of this matter and construct a new disposal plant, before the court issues an injunction compelling them, as there is no question but that this plant is an entire failure. Allow me to suggest that the editor of the News take a walk along said stream as the city solicitor did before he settled these cases. In the spring when the fish that are hatched in the tributaries come down into said creek they no

sooner enter the creek than they die and are washed out all along the bank and help to add to the stench. A few years ago we used to harvest a crop of ice off the creek, but this had to be abandoned.

One of Salem's taxpayers told me about the last week that no citizen who knew the actual condition of things would say one word against the small way in which the land owners were merely began to be remunerated for the pollution so unwillingly thrust upon them. Yet "ignorance" is no excuse, I believe. A former solicitor of Salem himself acknowledged he had advised the city not to build an adequate disposal plant as the settlement of these damage claims would be far cheaper for the city.

All citizens desire pure milk to be brought into Salem. Do they wish the cows to be allowed to drink this kind of water? If the animals themselves would? Of course it is no task or hardship in the least, to fence a creek so cattle cannot get to it!

Fables of a Wise Little Bride

WHAT a nice drawer full of clean linen for George! How really helpful and housewifely she felt as she laid the things away—all the shirts and soft collars beautifully ironed and finished.

But it was hard work and tiresome, standing on her feet so long. The week's ironing had taken five hours! How could she keep it up week after week!

Then on Wednesday she saw an electric ironer demonstrated in a store window. The woman was sitting down to the work, relaxed and comfortable. A touch of her foot on the long control board seemed to operate everything and she just guided the article under the slowly revolving roll.

How simple and easy it looked. And what a wife-saver it proved to be! For the Bride got her neat little ironing machine and now finishes up in a couple of hours.

There's a new 44-inch Thor Ironer you should see. Very compact and easy to handle—use it in the kitchen if you like.

Clean Up Cemetery—Members of the congregation of Zion church, four miles west of Lisbon, spent yesterday in cleaning up the cemetery, straightening grave stones, replanting flowers and pruning shrubbery. The women of the church served a lunch at noon. This is a custom that has prevailed among the rural congregations of the county for years and was observed at West Beaver church five miles south of Lisbon this week.

Two Fishing Parties—Lisbon fisherman left last night and this morning for Canada and Michigan. The Michigan party consisted of Orvil Adams, Harry Guy, Roy Penny, James Taylor, Thomas Gunn, Fisher Babington and Arthur Schrag. The Canadian party includes H. B. Fox, Lemuel Johnson, Edward Piero and Harry Morris. Both parties expect to be absent at least a week.

Parents of a Boy—Mr. and Mrs. Clarence Pannier are the parents of a son born Thursday afternoon.

ROGERS SEEKING ELECTRIC POWER

Many Improvements To Town Will Result, Citizens Point Out.

Rogers, June 16—Residents of the town of Rogers are still waiting for their place in the sun—or rather in the electric glare.

More—they're going after it. Recently plans were announced as complete for the Harmony Electric company to extend its high tension wire four miles from New Waterford to Rogers. The power line was induced by the coming development of vast coal acreage in this vicinity and the establishment of a fine lining plant, a new clay industry. The latter has been held up, however, and as a result the electric company has delayed expansion.

Having waited for several weeks without result, members of the village council and residents of Rogers plan to make a trip to Butler, Pa., headquarters of the power company, within a few days and try to hurry the proposed expansion. They will argue that the coal development is being held up by lack of power; that other industrial projects must be held in abeyance and that the entire village and environs are forced to get along without electricity due to a gap of but four miles.

If the high tension wire is extended to Rogers, widespread use of electricity will result, according to Wil-

Ham Green, clerk of the township board of trustees. Streets will be lighted. Homes will be wired for "juice." Much home building now contemplated will offer an even wider market for current.

These things will be urgently pointed out to officials of the Harmony line at the coming conference.

The village council is working in harmony with other residents and a strong delegation is expected to make the trip.

Recently a large area of abandoned coal land was acquired by the Quaker Valley Mining company, in which Youngstown capital is interested. Beneath the six-foot vein of coal lies a 14-foot vein of clay. Its worth has been tested and a deal has been reported under way whereby Toronto interests plan to erect a plant at Rogers to make paving block and flue linings. If a power line is brought to Rogers soon, development of this industry unquestionably will result, residents assert.

New York—Three-year-old Frank Spencill was shot and killed while

standing in the doorway of his home reaching into a cupboard for five pennies which his mother had given him to spend for candy. The murder has not been found.

Youngstown—Charles McCarthy, three, is dead. His clothes and body were burned when the matches he was playing with ignited his clothes.

NEBRASKA FLOOD ROUTS RESIDENTS

Lincoln, Neb., June 16.—The flood in the Platte river valley was reaching a serious stage today. The South Platte river at Ogallala, Neb., was out of its banks, flooding homes in that town, and was continuing to rise. Residents here were hurriedly seeking higher ground.

Neither county commissioners had been notified Monday of the flood danger, but had failed to take preventive measures.

The rain-sodden section in north-western Nebraska, near Norfolk, was visited by a severe tornado late yesterday which did much damage to crops and farm buildings, but failed to strike a single village.

New Law To Regulate Motor Bus Operators In Ohio

Columbus, June 16.—Motor bus operators throughout Ohio are making preparations for complying with the new motor bus law which becomes effective July 27, and which places the state's newest transportation industry under complete jurisdiction of the state public utilities commission.

The new regulatory measure provides for liability insurance policies of bonds and calls for the payment of fees by these concerns for the purpose of maintaining improved high ways.

Members of the utilities commission estimate that there are today 420 motor bus companies operating existence previous to July 27 must obtain a certificate of convenience and necessity from the commission. This provision has caused scores of new companies to be organized during the past two months.

The commission has just completed a tabulation of reports made to it by motor bus companies for the year 1922. These reports show that 545 buses were operated last year in Ohio by 264 companies. These buses carried 11,951,705 passengers, an average of 1,110,433 a month, and their gross receipts totaled \$2,277,152.33. Neither operating expenses, taxes or mileage were given.

For purposes of comparison, it is noted that the 67 interurban railway companies in Ohio last year carried 215,497,586 passengers, an increase of 5,839,819 over the year previous, although their gross revenues dropped from \$31,720,865.42 to \$30,937,994.16. The 67 companies operating in 1922 had 2,722 miles of track in Ohio, as compared with 3,064 miles used by 71 companies the year previous. The total investment of the interurban companies decreased during 1922 from \$232,690,713.39 to \$215,331,365.57.

In 1922 the interurbans paid taxes of \$2,499,196.70, or approximately nine cents out of every dollar collected.

Of the 264 bus companies operating in 1922, no fewer than 167 companies were formed in that year, while 55 have been in business since 1921, 37 since 1915, with one dating back to 1911.

The new bus law taking effect July 27, in addition to placing the motor bus companies under complete jurisdiction of the state utilities commission and requiring a certificate of convenience and necessity from that body before operation, also provides: That bus operators must file with the commission the routes over which they are to operate, their time schedules and their tariffs, and that they must carry out those routes, tariffs and time schedules.

That companies must file a liability insurance policy or bond satisfactory to the commission sufficient to adequately protect the interest of the public.

That 50 per cent of all taxes collected from motor vehicles carrying passengers or merchandise shall go to the state, and 50 per cent to the municipal corporation or county in which the vehicles operate providing, however, that the entire sum of the taxes must be used for maintenance of highways.

That buses operating over a regular route between fixed terminal carrying

seven passengers or less, shall pay taxes of \$40 a year per vehicle; buses carrying between seven and twelve passengers shall pay \$50 a year per vehicle; buses carrying between 12 and 18 passengers shall pay \$140 a year per vehicle; and buses carrying between 18 and 24 passengers shall pay \$180 a year per vehicle, and buses with a capacity of 24 passengers shall pay \$230 a year per vehicle.

That the tax schedule for casual bus operators who have no regular routes or fixed terminals shall be \$20 per year per vehicle with a capacity of seven passengers or less; \$50 per year per vehicle carrying between seven and twelve passengers; \$90 per year per bus carrying between 12 and 18 passengers; \$145 per year per bus carrying between 18 and 24 passengers and \$150 per year per bus carrying 24 passengers.

That the tax schedule for motor vehicles carrying freight over regular routes shall be \$40 per year per vehicle for 1½ ton capacity trucks, \$50 per year per vehicle for 1½ to 2½ ton capacity trucks, \$140 per year per vehicle for 2½ to 3½ ton capacity trucks, and \$200 per year per vehicle for 3½ tons.

The bus company reporting the largest gross receipts in 1922, according to the commission's tabulation, was the Cleveland-Akron Bus Co., with \$166,082.91. It carried 209,584 passengers between Cleveland and Akron.

MRS. HICKEY SO WEAK COULD HARDLY STAND

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health

Worcester, Mass. — "I had some trouble caused by a female weakness and got so run-down and weak from it that I could hardly stand or walk across the floor. The doctor gave me all kinds of pills, but nothing helped me. I happened to meet a friend who had taken Lydia E. Pinkham's Vegetable Compound, so I thought I would try it. After taking it a week I began to improve, and now I feel fine and am doing all of my housework, including washing, sewing and house cleaning. I have recommended your medicine to my friends, and I am willing for you to use this letter as a testimonial, as I would like to help any one suffering the way I did from such a weakness."

What's Your Score?

Exercise for health? Of course we do. But down in our hearts we know that the thrill lies in our proficiency—in making the best score and in landing the biggest string.

What don't we do to give ourselves that thrill?

We pinch our pocketbooks for clubs, tackle, gear, equipment—all in order to increase our proficiency. Yet, if we stop to think a minute, we know that in golf, tennis, fishing, hunting, motoring—any outdoor pastime—defective eyesight will spoil our form and take the edge off our enjoyment.

We sigh for Roosevelt's guns—when we should be thinking of his glasses.

Even if you already wear glasses, have your eyes examined. Many who need special lenses for outdoors aren't aware of it. Perhaps another prescription would improve your game immensely.

To judge your distance, put sting in your strokes, land the fish, bag the game—to get from outdoors the thrill that outdoors owes you—have your eyes examined without delay.
